### Welcome to the world Faraoland Royal Wedding Cake!

At the same day as the royal wedding here in Sweden, Loka decided it was time. She had one wonderful brindle male the 19th of June. He is already spoken for.

### Love at first sight!

Sometimes you get struck by love at first sight and that was the case for us in our first meeting with "Pajson",

Dakarai Piece of Cake. It was in Vadstena and he was a selfconfident easygoing puppy, who won BIS puppy at the swedish basenji specialty. In the competition of many other promising puppies. We have, since then, kept an eye on Pajson . Despite the fact that he has not been shown alot, his awards tell there own story. At the norwegian specialty he was 2nd best male with CAC, from juniors. He has won CAC in Sweden as well. But the thing we value the most with Pajson is his superb temperament, well marked stripes and beautiful head. He also contributes with new exciting blood to our breeding program. He is the result of a successful AI in Finland by an american champion dog and

a finnish champion bitch. Pajson was imported as a puppy from Finland to Sweden.

Several of Pajsons' relatives are big winners around Europe and USA.

We believe that this is a nice combination with our super elegant bitch "Loka", Ch Faraoland Yippie Loka. You can read more about [Loka](#) in her own page and about Pajson at kennel [Twigas website](#). Thank you Ulrika for this opportunity! Hopefully brindle babies will be born in June, at the same time as the wedding bells ring to honour our beautiful royal swedish bridal couple. The litter as well as the wedding approaching will be celebrated this spring.

This litter is approved by [the Swedish Kennel Club](#) and [the Swedish Basenji Club](#).

Both parents have excellent health results and the inbreeding coefficient for the combination is 0,00 %.

You are welcome to contact us for more information about our "Royal Wedding Litter".

The "engagement" (mating) took place the 18th of April.
